

Ag Efficiency Plus for Farms and Food Processors

Over \$4 Million in Rebates Available!

Southern California Edison's agricultural and food processing customers now have their very own program to help increase energy efficiency. This program offers free energy audits as well as cash incentives for energy efficient equipment.

FREE ENERGY AUDITS . . . A MAP TO YOUR ENERGY FUTURE

If you'd like to make your facility more energy efficient but are not sure where to start, an energy audit can help.

Energy audits begin with a visit to your facility to collect data about your operation. The energy auditor will look at equipment run times, nameplate information, hours of operation, and more. This data will then be used to create a customized, multi-page narrative audit report detailing the types of equipment that are energy efficient and cost-effective. The report will help you prioritize your investments in energy efficiency — a true map to your energy future!

For questions or assistance call: **(800) 791-7541**

CASH REBATES!

This program has \$4 million rebate dollars available to agricultural producers and food processors.

Rebates are available for installation of energy efficient interior lighting, exterior lighting, custom lighting, air conditioning, pumping, refrigeration, ventilation, cooling, controls, and motors. The process to receive a rebate depends upon the type of equipment being installed, so call us today to learn more about how to apply. You'll be glad you did.

Ag Efficiency Plus is a component of Southern California Edison's Agricultural Energy Efficiency Program.

For more information, call the program hotline at **(800) 791-7541** and learn more about how you can begin saving energy and money!

"As a facility manager I'm always looking for ways to reduce my operating costs. The rebates will help me achieve my goal sooner."

— Food Processing Facility Manager

"I was amazed at all the hidden potential that is out there to save money on my farm. The energy audit really helped me sort out my priorities for upgrading some of my equipment."

— Dairy Producer

HOW TO APPLY

To apply for a facility audit, call **(800) 791-7541** to talk with a program representative. There are two types of incentives offered through the program:

- **Calculated** rebates are based upon the project's energy savings.
- **Itemized** rebates are pre-determined. To find out which type of incentive is best for you, call the program hotline at **(800) 791-7541**.

Pre-inspection and/or post-inspection may be necessary, depending on your project. Customers who wish to have an audit must agree to have a program representative visit the site in order to collect information.

After receiving your paperwork you can expect to receive your rebate payment in approximately four weeks.

NR-220-V1-1206

This program is funded by California utility ratepayers and administered by Southern California Edison Company under the auspices of the California Public Utilities Commission, through a contract awarded to Global Energy Partners, LLC. Global Energy Partners has hired EnSave, Inc. as a subcontractor to assist in the implementation of this program. California customers who choose to participate in this program are not obligated to purchase any additional services offered by the contractor.
